
FSX IRIS PLATINUM SERIES - C-27J 11

Sep 16, 2011 Name: Helicopter section is empty because im not an admin! But i think this section should be used for anyone who wants to post about the most awesome helicopters ever created. Closest thing to a VFR in C-27J : I started with a C-27J Spartan, i made some nice alterations, and added some parts, following the scheme of the aircraft of em, and this is my final product. What a beast, really hard to do VFR :D!!! It can land on aircraft carriers, and on ships, and it can even land on highways! (but i think it could be a better boat, for example with a slightly smaller cabin and more missile space) and this is the before and after : FSX IRIS PLATINUM SERIES - C-27J
