The Worlds Fastest Free Public Torrent Tracker Manipulate audio using the audio mixer, also known as the sound controller. The main purpose of the mixer is to control individual tracks in a movie or audio CD. Before each section of the song, one can choose between the following controls: Resume track and continue playback of the previous section. Finally, if a track is paused, its Start and play buttons will appear in the top-left corner of the track's window. Using this operator, one can add effects to the audio, such as fade-in / fade-out, reversing, pitch shifting, and altering the gain of a track 3e33713323
