Picture Junkie is a tool for converting pictures from various formats to JPEG, BMP, TIFF, GIF, WMV and other formats in batches. It offers support for more than 300 image formats, including MOV, JPG, PNG, BMP, GIF, TIFF, WMV, AVI, MP3, WAV, MPG, MP4, FLAC, MPE, FLV, JPEG and more. Ad-supported tool When using Picture Junkie, the setup process does not require much time, but it does offer a section called "More Utilities" that installs additional programs. This is where things can go wrong. With that in mind, we recommend that users inspect the privacy policy and the terms of use of any bundled programs. In addition, users need to be careful and monitor the download process, as some bundled programs can be quite intrusive and cause problems, especially if they are not required. Simple and intuitive interface The Windows program is a well-structured and simple application. There are no additional settings to configure, and users can immediately start the conversion process. Easily configure settings There are a few settings for converting pictures. Selecting an output format, folder, quality, color depth, file type, compression and frame rate can be done in just a few clicks. The conversion process is fast and will not slow down the computer. Picture Junkie delivered results in an acceptable time frame. It doesn't have a voice but EZ Voice Box is a very simple tool that allows you to change the file format of a wav or mp3 file to MP3, OGG, AAC, M4A and WMA. Ad-supported tool EZ Voice Box is ad-supported, so users should be careful when going through the installation steps because the app downloads additional utilities. Simple and intuitive GUI The main window contains only a few options, so it doesn't have too much to configure. The interface is easy to use. Easily configure settings There are a few settings that can be changed, including output path, format and quality. Furthermore, users can select a file size and change the bit rate, as well as switch between WMA, AAC, MP3, OGG and WAV. The conversion process is rather fast, but it is far from being fast and seamless. EZ Voice Box didn't work in our tests. When working with Microsoft Word, you must have the ability 80eaf3aba8
