This free product can help you unlock Excel files without having to reinstall a copy of Office. The program is completely safe, as it does not require a key of any sort. If you've got a copy of Office, then you can use it to remove protection from individual sheets and entire workbooks. iSunshare Workbook Unprotect Genius Latest Version: The latest version of this product is 2.1.2.0. The program is supported on Windows XP, Windows Vista and Windows 7. www.imaging-software.com This program is a client for Java which supports an event model for the backend server, includes a socket server library, and can be used for the configuration of Java applications. Useful for setting up Java servers, and for quick and simple Java clients, you can use the "go" utility to generate serializable and extendable classes from the GUI which supports the download of binary and XML files. www.imaging-software.com Once the file type is selected, the name of the file will be appended automatically. Then, the application offers the chance to add comment lines, add notes, and to rename files by clicking on the icon. The file's size will then be displayed automatically. Designed for use with DXF files, this program provides an intuitive interface and an inbuilt viewer to view the dxf files. It is a free tool that provides a powerful conversion utility and allows you to browse, convert and edit a.dxf file into a.prn,.cdr or.hdc file. The program is simple to use, and allows you to view the file while it is being converted. www.imaging-software.com When you get a screenshot on your computer, you are able to lock the screen in order to prevent other users from seeing what is on your desktop. But what if your computer freezes? In this case, you will be able to unlock it using a software called "unlock screen after shutdown". www.imaging-software.com No matter what your device, be it a phone, tablet or computer, the.BizGoz bundle can help you create professional looking content on all of them. The bundle includes a pack of wallpapers, some GIF images and more for over 250 free and customizable layouts. If you are on a low income or your device is simply not able to handle even a modest set of plugins, then the.BizGoz bundle will come to your rescue. There are over 800 templates for you to choose from, which makes creating a unique, professional-looking content even easier. www.imaging-software.com This program has been developed for the purpose of generating a report of the type of document you have, and the count of pages.
