Additional notes: MLB Scores Cracked Accounts should not be confused with another program named MLB Gameday. This is MLB Scores. Ladies and gentlemen, here you have an excellent application to use and enjoy if you're a baseball fan. It's called MLB Scores. This one is intended to give you, as it says in the file description, "live game information and a complete schedule of all MLB teams", as well as a simple and efficient interface. The fact that it's a Vista compatible program makes it even more attractive. Moreover, you can also specify your favorites list in the program itself, so you can see the best games without having to click the other games. This is done without having to pay with your time, since the program runs in the background all day long. The interface is very simple to use, as it has a very clear and intuitive main window. In it, you'll find a

detail of the current game, including the game time, the score, the pitcher, and other relevant information, as well as a line to follow the game. On the left side of the window, you'll find the favorites list, where you'll see all the teams you've added to your list. If you want to remove a team from the list, you just have to go to that team's detail and press the "-" button. The tool bar on the right side of the window also allows you to view the schedule of the MLB teams, search for a specific game, or choose the duration you want the program to run in the
