Wallpaperio N95 Maker Crack Mac is a lightweight Windows application whose purpose is to help users create background images for their Nokia N95 devices. Clean feature lineup and supported file formats It sports a simple layout that allows you to upload files into the working environment using the built-in browse button, so you cannot rely on “drag and drop” support. The program works with the following file formats: GIF, JPG, BMP, WMF, and PNG. Basic functionality Wallpaperio N95 Maker gives you the possibility to select the zooming level, pick the background color, preserve the aspect ratio, as well as choose the device and resolution. What's more, you are allowed to specify a filename and pick the target location, preview the photo, and view the files stored in your PC and device in a dual pane. Additionally, you may copy wallpapers from the computer

to the device and vice versa and edit the filename for items saved in the computer. Other notable characteristics worth mentioning are represented by the possibility to delete the files from the device, use the built-in downloader from grabbing pictures from the Internet, and choose the default directories for the resized photos, device, and downloading task. During our testing we have noticed that Wallpaperio N95 Maker accomplishes a task quickly and without errors throughout the entire process. It doesn't eat up a lot of CPU and memory, so the overall performance of the computer is not hampered. Bottom line As a conclusion, Wallpaperio N95 Maker offers a handy set of parameters for helping you create wallpapers for Nokia N95 devices, and can be easily configured by all types of users, regardless of their experience level. It still needs some improvements in the GUI area to make the entire process more intuitive for its users and a different approach for improving the overall functionality of the tool.
