ProDraw: ProShow: Predictive and adaptive modeling for complex, curved models. You can use this feature to virtually build entire models of spaces, such as apartments, retail stores, aircraft hangars, or factories. In addition, this toolset supports extracting models from 2D, 2.5D, 3D, and 3.5D views, and 3D models from orthogonal views. (video: 1:43 min.) Snap Zoom: Work with very large drawings, easily and without compromising performance. AutoCAD has the ability to display large drawings as accurately as possible without zooming in. So large drawings can be explored and examined with precision. (video: 1:14 min.) Powerful and easy to use fillet and chamfer functions. With fillet, you can create smooth curves or fillets around the edges of two overlapping objects and chamfer lets you create smooth, rounded corners in a single command. Explain & instruct: Create perfectly visual explanations of a drawing. With Explain, you can add comments to a drawing's objects to make the drawing understandable, and with Instruction, you can add comprehensive information to the drawing's comments. Object-based CAD integration. With the release of AutoCAD 2023, you can more easily integrate the world around you into your design process. Your designs can now integrate into real-world environments, such as planes, boats, cars, trucks, motorcycles, or helicopters. SceneLab: Take advantage of innovative features that make it easier to work with your 3D scenes. Scan from CAD and make dynamic edits to 3D models and surfaces, add or remove details, and move and resize elements on a scene. Use all the editing tools and features of AutoCAD in real time with your 3D scene. (video: 1:53 min.) Dependencies: Understand and resolve your dependencies. Receive automatic alerts if a file in your project is out-of-sync. Set AutoCAD to automatically trigger a build, and make changes to your project based on the build result. (video: 1:53 min.) CreoCAD: Be mobile. With CreoCAD, easily create, edit, and manage your BIM designs in the cloud. You can use CreoCAD from anywhere, even offline, and no computer or operating system
