Arcade Music Box is a Windows Media Player-like Jukebox media player. Arcade Music Box is the perfect media player for any game room, arcade or game center with limited number buttons and gamepads supported. You don't need to need software in charge of your music collection. Arcade Music Box is also a great solution when you want to connect to your jukebox with your CD/DVD player, portable and sound system. Arcade Music Box will let you play a wide range of video formats (MPEG, WMV, etc.) and music formats (MP3, WMA, WAV, etc.) without the need of installing any additional player software. You just need to load an media file of an supported format with a double-click. Arcade Music Box supports the most popular music formats of the 21st century. In addition, it is extremely easy to sync your music files into Arcade Music Box. You can also browse your music library and access the music you want with a simple Windows Explorer-like list, the only limit is the size of your music library (up to 32GB). Arcade Music Box supports up to 12 connected media players at the same time, and you can quickly synchronize all players using your mouse. Arcade Music Box allows you to control your music playback using a standard mouse and a standard keyboard (pressing any key, left or right arrow, up or down arrow will select the next song on your jukebox). Arcade Music Box also supports a powerful Media Cache mode in case you want to synchronize with a remote file server or a USB storage. Arcade Music Box integrates automatically in your local network to offer a safe and instant music synchronization between computers. Finally, once you have got to know how to use Arcade Music Box, you can also easily browse the music jukebox of your guests (control with a "Elevator" 2 buttons) and play your music to them using a Kinect or a Phone using any ZVM (Jukebox Music Player). Settings: Arcade Music Box shows you a list of all the connected media player (if you choose "Set Up my Arcade Music Box", then all your media player will be shown in the list) Arcade Music Box offers presets to make the most of the available buttons in any situation (Windows media player like "Scrolling Songs" & "Playing now" or just "playing all" and "skip to next song") Arcade Music Box supports all major video and audio formats, including 09e8f5149f
