## Mass Effect 3 Mods Miranda

November 13, 2021 - This is a very simple mod that restores the two butt shots that Bioware removed from Mass Effect 3 Legendary Edition (LE3). Starting from version 1.1, .357 Magnum was included in the game. This mod replaces all rifle shots with the new .357 Magnum caliber. The rifle uses all .223, .308 and .577 rounds (including .223 and .308 rounds) all ammo from the game. This is a really simple mod. You just have to enable this mod in the mod library. You can also just drag this mod to the console. You don't need to install anything. All weapons in the game support this mod. This mod fixes a few things: New scope.
