Please update FlashMenu to version 1.5.0.5 or later before doing this update. Fixed using a Prolink BX2500 TV card causing the system to hang when resuming S3. summary . Windows 7 and Windows 7 Starter Edition are the most interesting releases from Microsoft in recent times. They have incorporated many solutions that were announced at the developer conference in July, but which have not yet entered the market. For example, we finally got support for DirectX 11 in this version of the operating system: in Windows 7 Ultimate and Windows 7 Enterprise - definitely, but in Windows 7 Starter it's not a fact that it will appear in the near future.
