System Requirements:

To run the game, you'll need a compatible version of Direct3D on your PC. Please note that the game does not use the most up-to-date version of DirectX and may not perform as well on Windows 8 and other operating systems as on Windows 7 and other previous versions. A second video card is recommended for good performance. For best graphics and frame rates, we recommend a DirectX 9.0c or better graphics card. Sound cards and monitors which support high quality surround sound and support the DTS or Dolby Digital codecs (such
