This Letter presents the results of an experimental investigation of the decay X(0)(3652) --> h(1)(2P(1))--> pi(0)(p)K(+) based on the analysis of the invariant mass spectra of pion pairs in the final states [pi pi](0) and [gamma gamma]. No signal for this decay is observed. Using [pi pi]- and [gamma gamma]-clustering techniques a lower mass limit is established for the X(0)(3652) of m(X(
