200HR 200HR is a geometric algebra of dimension 2. Introduction In geometric algebra, a type of algebra formalized by Clifford Algebra, the element e_2 is the product of the elements e_1 and e_1 . In other words, $e_2 = e_1 e_1$. The equality sign means that the algebra is commutative. Like e_2 , the element $2e_1 = 2e_1 e_1$. In 200HR, the element e_2 is a vector space basis element, and $2e_1$ is a vector space basis element as well. Degree The degree of a geometric product of geometric products is the sum of the degrees of the basis elements involved. Products The element is the identity element. The products of elements in 200HR are: The commutative, associative and distributive laws hold in 200HR. References Category: Geometric algebra Anders Bjør, lørdag 12. februar 2018. FaZe Clan's Aussie Contender, Str8 SparX photo: expo Str8 SparX from NSW, Australia is a fresh addition to the CeX Sporting Team and will compete in the 2016 Australian CS:GO Pro League. Will he be on top of his game or will he drop out? We sat down with Str8 to find out. To start off with, how did you and the team get started with CeX? A big reason why I'm here is because I've been a CS:GO fan since I was a kid and a big reason why CeX was teaming up with us was because they are in Australia as well and it's an easy route to get visa for us. Str8 was being sponsored by CeX before we came on board with them and they were having tough times, so we got approached by them, we signed up, and now we are going to be teammates with them. It's exciting to be part of the new season of the CeX CS:GO league. We want to know if you've dived into CS:GO before coming to eSports? Well I have been doing it a couple of years now, I've been doing it since I was 13 years old, so for the longest time I've been playing CS:GO. I started playing on WOW in high school, then I started playing Counter Strike: Source when I was 16, but I was younger then. We have a few questions about CeX and your achievements so far with the organization. Can you tell us about yourself and your achievements? Well as far as my achievements go, I've won a lot of tournaments, but I have to say I've never been a professional. So, I'm just a hobbyist and my team have been able to do a lot of great things. We've been able to play a lot of tournaments around the world, and we are expected to be in the top 25 in the world and the top 5 in Australia
