Export messages and back them up in a CSV. Designed with ease of use in mind, the main interface only comprises two panes, one for displaying the contact list and the other for viewing and browsing conversations. Once you back up the SMS archive to your memory card in VMG format, you can use

The Owl VMG Reader to export messages and back them up to your computer in CSV format, which is compatible with a wide range of applications. Use a wizard to import items and display conversation mode It comes with a built-in opening wizard that guides you through all the necessary steps for importing the archive message files. The inbox and the outbox VMG files are listed separately, enabling you to select the ones you want to import to the current database. Although the inbox and outbox messages are differentiated, the program detects the contact names and displays the SMS stream in

conversation mode. Incorporated spell-checker and exporting text messages Exporting the conversation archive is just a matter of a few clicks. You can select the output location and choose whether to merge the message date and time together or not. Also, the number of SMS messages to include in a CSV file is customizable, enabling you to import the output CSV files on an Android device. The integrated bad character correction tool uses the classical UTF-8 algorithm and the integrated Persian / Arabic character database in order to automatically identify and correct missing characters in the

text. Splendid competition prospects for Israeli F-16 in Mediterranean With Israel's ambitious plan to operate a squadron of F-16s in Croatia, there's a little less competition in the Mediterranean for the Israeli Air Force. Still, that plan could be complicated by a British decision to sell Croatia a new set of Tornado fighters. The Israeli Air Force announced in mid-March that it would purchase 24 additional F-16s to replace the second-hand USAF-sourced Block 50s that were used by the IAF during the 1980s and 1990s. The tender, which has led to a robust armada of 26 competing firms,

includes designs from Boeing, Dassault, Lockheed Martin and SAAB, along with modifications from IAI. The plan calls for a pair of two-seat, air-to-air and
