The trial version of Photoshop includes about six weeks of use. Psst... Did you know you can't buy Photoshop? Yes, you can. You need a current version of Microsoft Windows to run Photoshop and it's only \$49.99. The program and the Live suite of applications are usually available in a one-time fee for Windows. Mac computers use Adobe's Creative Suite, which costs \$699. Although Photoshop's functions can be found in other programs, this book gives you the definitive guide to getting the most out of Photoshop. You may find a shortcut to some features in the programs mentioned in the current chapters. But don't worry, we aren't just talking about Photoshop here. This book includes training on many other programs and tools that you'll use when editing and preparing images. # What's a program? Programs are the tools that you use to create images, similar to your car or a computer. Many people use programs to create and edit images, and they have become more popular in recent years. Some programs are designed for a specific purpose, whereas others are designed for a specific function. You may be familiar with a program if you edit your photos with it or use it to create such things as banners and business cards. Some programs, like Photoshop, are considered to be the industry standard program for creating and editing digital images. ## Using Photoshop Elements You may hear the name _Photoshop_ used interchangeably with _Photoshop Elements_, which is Adobe's free image editing and manipulation tool. The two are very similar and many of the features you'll learn in this book also apply to the free program. Photoshop Elements version 8 or higher is available for Windows, Macs, and Linux. You can download a free 30-day trial of Photoshop Elements at www.adobe.com/products/photoshop-elements.htm. You need to be running Windows XP or Windows 7 to use Photoshop Elements, so don't worry if you have a Mac. Adobe has a free downloadable program for the Mac called Elements. You can open, save, and print your files without having to buy the full-featured application, but you do need to buy the program for a small one-time fee. There is also a 30-day free trial. You can find more information on installing the program at .

Natural history of impacted wisdom teeth and pre-eruptive decompensation. The objective of this work was to investigate the prevalence and natural history of impacted third molar crowding and the relationship between this and pre-eruptive decompensation. Two hundred and four individuals who attended a secondary orthodontic service for treatment of crowded or malpositioned teeth were examined for evidence of pre-eruptive decompensation. The prevalence of pre-eruptive decompensation was 14% and no significant differences were seen between genders. Pre-eruptive decompensation was more likely in subjects with larger incisor overjet ($P= 0.007$). The prevalence of third molar impaction (incisor impactions) was 50%. The natural history of impacted wisdom teeth was determined by comparing the position of the tooth in the follicle at presentation with its position in the follicle at orthodontic re-exposure. In the majority of cases the follicles were unchanged in position. Only four teeth were resorbed and three had taken a pathological position in the follicle. Twenty-one percent of subjects showed evidence of pre-eruptive decompensation. The majority of impacted wisdom teeth developed normally and only a small proportion required surgical intervention. The results do not support the inference that third molar impaction is indicative of pre-eruptive decompensation.

Tracking the market and economic trends that shape your finances. Starbucks is raising its prices, and today customers can find a \$5 daily deal near the Mar Vista store July 19, 2008 | 12:01 am Starbucks is raising its prices, and today customers can find a \$5 daily deal near the Mar Vista store (465 Pacific Coast Highway, Encinitas). Starbucks is boosting prices by 5%, on average, beginning Thursday. Breakfast will rise by \$1 to \$7.75, and lunch and dinner will increase by 3% to \$8.25. The 12-ounce tall iced mocha will go up \$1 to \$2.75 and the bagged iced coffee will increase to \$2. A latte, on the other hand, will stay the same, at \$4. The company has been trying to stimulate sales, saying it has lost 3% of its business to super-price-sensitive competitors, including Dunkin' Donuts. "It's not going to generate much of an increase, but it's a step toward recovery," said Joe McCarten, director of Starbucks' partnership and licensing division. The new prices are the first changes in 14 months. McCarten said the company has since raised prices in the Northeast and South but not in the West. Starbucks is expected to report a fourth-quarter net loss of \$19 million to \$20 million on revenues in the range of \$4.25 billion to \$4.35 billion. The company said late last week that it has seen an uptick in business and that its holiday sales will be well below 2008's record \$5.9 billion.
