Anyone who owns a Windows operating system can follow this instruction to get it. Indices for environmental risks assessment. Assessing the potential harmful effects of environmental chemicals on humans is very important in the field of public health. The traditional methods of environmental risk assessment by hazard quotient or target hazard quotient have been replaced by less time-consuming and more effective approaches. In this paper, we show that it is possible to combine different hazard indices and also that a risk assessment can be simplified by use of only a single index of the environmental hazard of chemicals, the chemical hazard index (CHI). It is shown by a series of model calculations that CHI can be a quick and reliable screening instrument for environmental risks assessment. A guest column by Israeli journalist and peace activist Doron Almog. As we approach the 70th anniversary of the Nakba, I find it difficult to conceptualize the past: where is it, how far is it, when did it happen and when does it go? "Nakba" - that's the Yiddish word for "catastrophe." It's about 700 square kilometers of land on the coastal plain, from what is now Rafah in the west to just beyond the Old City of Jerusalem in the east. It's also about 1.5 million Arabs, about 850,000 of them expelled from their land, their homes and their entire way of life; living in squalor in refugee camps in neighboring countries and in the shadows of the so-called Zionist "facts on the ground," as though the fate of the Palestinian refugees doesn't make any difference for the present and the future of Israel. From the perspective of the future, we must look at what took place over the last 7 decades. The story of the Nakba is the story of centuries of forced settlement of the region by the Zionist movement, 648931e174

Hi, I'm Adam (aka Seacrest) and I build acoustics and write software. This is a space where I write about sound. But this isn't an "I'm an engineer, here's my plan for the week" space. In my daily life, I'm a husband, a father, a musician, an author and a friend. And that's just in my life today. The things I do, and who I do them with, change just as often. It's this ebb and flow that feels so good, and in a strange way, and in a very real way, it's what life is all about. And it's this understanding of life that feels so good, and in a very real way, is what life is all about. And it's this ebb and flow
