Fifa 22 Features Key:

- Realistic physics engine for defined movement and create-a-player interactions. Compilation of real-life data including acceleration, deceleration and torque provides more natural run and pick-up.
- Play every version of the game in Classic Mode for authentic player feedback. Explore classic match types like Team of the Week, now more authentic and packed with community content and classic-inspired player interactions. Play Campaign mode for a historic look back at some of the game’s most memorable moments including World Cup-winning teams and memorable goals. Master your club with Ultimate Team added to create an authentic and detailed team.
- UEFA Champions League and Trofeo assets make for the most authentic Champions League matches to date, featuring the most realistic stadium creations and player attributes. The return of Champions League helps players transfer their favorite players and kits and create legendary teams all over the world.
- Use Experience Points to develop advanced skills, receive training recommendations, and unlock new games modes, players, and kits.
- Improved, immersive menus and scoreboard displays refresh gameplay with an animated presentation that has been re-engineered, using a 3D engine, to create a deeper and more immersive experience in the main menu.
- The creation and management of your online player profile is now quicker and easier.
- Urban Live Integration — a brand new and deeper connection with the community, adds a myriad of social options including Facebook events, profiles, stats and messaging on the X one tab screen for easy access when in-game.
- INTERNATIONAL PLAYER TRACKING — MATCH PREPARATION. Monitor the health and status of your club team on the road and see your players’ exact position in the whole world. Increase your in-match performance by making sure you are fully prepared to compete in a fixture against a tough opponent. Most importantly, players receive relevant information on a global level, worldwide.
- New skill coaching — the ability to change not only favorite passing actions or shots in training, but also specific shooting styles or new shooting modes. Create your FIFA 22 training mode by customizing controls, including new FIFA 22-specific grip mechanics such as throwing up with overhand, underhand or sidearm.
- New defensive behavior engine — helps the new AI work smarter and jump higher to win aerial duels.
