Registration Code For Rar Password Unlocker

[Download](#)

this file is the code used to register the new rar password unlocker component that will

soon be available in the next release of the new rarreg.exe installer. if you have already registered it by creating a configuration file for it and using the utility rarreg.exe you should delete the current registry keys for your component and replace them with the ones that follow. otherwise you will be forced to create a new configuration file for it and run rarreg.exe again. ; the clsid of the component ; you may use any clsid you want for your component but this is ; the one used internally by the

installer. you may want to use a ; clsid that is used by your component. clsid\{8be04ffe-7d1e-11cf-8fea-00aa00b9e2d3} = {8be04ffe-7d1e-11cf-8fea-00aa00b9e2d3} ; a name for your component. name = password unlocker ; description of your component. description = password unlocker for rar archives ; clsid for the component's dll. clsid\{8be04ffe-7d1e-11cf-8fea-00aa00b9e2d3}\clsid = {8be04ffe-7d1e-11cf-8fea-00aa00b9e2d3} ; the file version of your component. ; if you don't want your component

to be automatically checked ; for updates, then set this to 0. ver = 1.0 ; icon for your component ; the icon of your component. ; for example the icon of rarreg.exe has the extension ".ico". icon = un.ico ; the directory where your component's icons are stored. ; this directory can be relative to the directory where your ; component dll is stored. icondir = rar.ico ; this is the file where you define the information of your component ; such as the url for your help file or the name of the author. fileinfo =

rarreg.txt ; this is the file where you can specify the default installation directory ; of your component. defaultdir = "{app}" ; this is the base path to look for the installer's configuration file. ; this is used by the installer to find the configuration file. basepath = "{app}" ; this is the default installation directory of your component. defaultdir = "{app}" ; this is the directory where the installer will look for its ; configuration file.
